

SPT Offshore is looking for an assistant financial controller who is able to support our financial department. This vacancy concerns a fulltime position with a minimum of 32 hours. The candidate is flexible and has the pro-active attitude.

Your challenge

SPT Offshore offers you a challenging job within a young and vibrant company that is constantly innovating in the field of offshore constructions. The company offers opportunities for education and training. As a part of our back-office team, you will be involved in all aspects of our financial administration. We are looking for a team player who understands the importance of correct and up to date data registration in order to provide reliable reporting.

Your duties

- Project control activities.
- Involved with preparing monthly reports and annual financial statements with the Financial Controller/Manager.
- Assist with the Month End Closing.
- Run the financial administration.
- Improve financial accounting processes.
- Submission of VAT returns and EC sales reporting.

Requirements

- MBO+/HBO working and thinking level, minimum MBA (moderne bedrijfsadministratie) studying for SPD.
- Five years of relevant work experience in a project-driven organization (Offshore/ Construction).
- Able to replace the Financial Controller/Manager in absence.
- Strong analytical and communication skills and the ability to recognize and implement structural improvements.
- Excellent knowledge of Excel.
- Good knowledge of Dutch GAAP.
- Experience with Exact Online is a plus.
- Comfortable working under pressure to achieve deadlines.
- Good command of the Dutch and English language spoken and written.
- You have a valid work permit for Europe.

Our company

SPT Offshore is the leading offshore contractor for suction pile anchors and foundations. SPT Offshore undertakes and manages EPCI project worldwide from suction pile anchors for moorings and pipelay startup, suction pile foundations of jackets and sub-sea structures to complete Self Installing Platforms (SIPs)[®], Self Installing Monopiles (SIMs)[®] for platform extensions and Suction Installed Wind Turbines (SIWTs)[®]. SPT Offshore operates its own well-proven suction pump equipment required for the installation of suction piles and anchors from shallow to deep water. Over the years, SPT Offshore has been involved in the design, fabrication, transportation, installation and/or removal of over 500 suction pile anchors and foundations and various self and barge installed platforms worldwide.
